KMCH Nursing Wire
News Letter

Message from Chairman

"A dream doesn't become reality through magic; it takes determination and hard work."

It is with a sense of great pride that I pen down a message for the college news letter KMCH NURSING WIRE 2024 of KMCH College of Nursing. My heart and mind fills with joy and pleasure as! Appraise the progress made at our institution. The seed of an idea sown in 1993 has become futuristic and the college is growing into a strong sapling. May the sapling grow into a strong tree and spread its branches. It is the endeavor of the group to make the academic a smooth journey with unlimited achievement and accomplishments.

Nursing is an art and if it is to be made as an art, it requires an exclusive devotion, as hard as preparation with excellent commitment. Nurturing creativity and inspiring Innovation are the two elements of a successful nursing education and this college aims at perfect amalgamation of the both. This magazine harnesses the creative energy in the academic community and distils the essence of the inspired imagination of the students in the brilliant way possible.

We can play a critical role in shaping the health care system of the future. There are transformative changes occurring in healthcare for which nurses, because of their role, their education, and the respect they have earned, are well positioned to contribute to and lead.

Dear Students, we not only create your future, but we craft you for your future. I extend my warm wishes to the principal, faculties and students to continue this journey on the road of excellence.

**– Dr. Nalla. G. Palaniswami
CHAIRMAN,
KMCH.**

Message from Managing Trustee

In the era of changing demography and increasing diversity nurses are facing multiple challenge and opportunities. They utilize their unique knowledge and skill to hold their place as a strong member in the inter-professional collaborative team. Yet, they need to think and practice differently, gain greater awareness of resources available so that clients can be connected with the care and support needed for their maximum wellness.

Today's nurses need to increase their visibility and self-worth, must take lead in bringing revolution of health care in making patient care more sensitive, affordable and quality driven. Transformation of such intensity is not very easy at individual or system level. It involves analysis of goal, mission, partnership and all essential element of organization.

KMCH Nursing wire - News Letter is an important document which is the happy repository of the events, achievements, and also a platform for showcasing the activities of students. I believe that excellence is the gradual result of always striving to do better. I extend my greetings and felicitations to the Principal, faculties and students to continue good work with commitment and dedication.

Message from Principal

It is a matter of pride to pen down the message for the new edition of our KMCH College of Nursing Newsletter-KMCH Nursing wire.

Education plays a key role in the overall development of the society. The role of education is definitely not limited to giving and grasping knowledge and theory. As Mahatma Gandhi said, "By Education I mean on all-round drawing out of the best in body, mind and spirit". Education is a lifelong journey which kindles creativity and innovation among students.

Nursing is a practice profession, preparing nurses with competency, compassion and commitment and is a challenging yet rewarding endeavor. Our faculty strives with uncompromising dedication for the all-round development of every student. Our students get benefit from a learner-centric teaching-learning methodology which helps to cater to the enhancement of their multifaceted aptitudes, intelligence, learning styles and interests.

The KMCH nursing wire will reflect and record our good work. I am sure it will stimulate us to grow further in our path of nursing educational excellence.

I extend my warm wishes to Students, faculty and editorial team for their efforts in bringing out the first edition of newsletter KMCH Nursing Wire.

**– Prof. Dr. S. Madhavi,
Principal KMCHCON.**
