News Letter

Message from Principal

It is a matter of pride to pen down the message for the new edition of our KMCH College of Nursing Newsletter–KMCH Nursing wire.

Education plays a key role in the overall development of the society. The role of education is definitely not limited to giving and grasping knowledge and theory. As Mahatma Gandhi said, "By Education I mean on all-round drawing out of the best in body, mind and spirit". Education is a lifelong journey which kindles creativity and innovation among students.

Nursing is a practice profession, preparing nurses with competency, compassion and commitment and is a challenging yet rewarding endeavor. Our faculty strives with uncompromising dedication for the all-round development of every student. Our students get benefit from a learner-centric teaching-learning methodology which helps to cater to the enhancement of their multifaceted aptitudes, intelligence, learning styles and interests.

The KMCH nursing wire will reflect and record our good work. I am sure it will stimulate us to grow further in our path of nursing educational excellence.

I extend my warm wishes to Students, faculty and editorial team for their efforts in bringing out the first edition of newsletter KMCH Nursing Wire.

**– Prof. Dr. S. Madhavi,
Principal KMCHCON.**
